

The Tech

"Let's Set The Rising Sun"

2-296

Vol. LXII, No. 47

CAMBRIDGE, MASS., TUESDAY, NOVEMBER 17, 1942

PRICE FIVE CENTS

More Pictures, New Section Featured In 1943 Technique

The Technique will be available to the general student body on December 18 and it will continue to be sold until there are no more copies left. The students are urged, nevertheless, to obtain their options as soon as possible since the price of the Technique will be raised from \$4.50 to \$5.00 in the very near future. Over 900 copies have already been sold, which is greater than the total sales of the Technique last year.

There will be nearly 1,200 copies of the Technique printed this year as compared to the 850 copies printed last year showing the increased interest in the Technique this year. Today, there will be a commuters campaign which will be held in the 5:15 Club, and on Thursday, November 19, a hall campaign will be carried on in the lobby of building 10.

The Technique has been written and edited this year more than ever to please the students. The yearbook will be presented in a general chronological order of this year, but it will still have the traditional separate sections for the

Seniors, the dormitories, the fraternities, sports, etc.

More pictures and more color will also be the rule since over 200 pictures have been added to the already large volume of pictures that have always characterized an edition of the Technique. In a new section of the Technique, there will be presented a new idea which in the words of Robert C. Meissner, '43, General Manager of Technique, is "novel as hell and looks damn good." Of course it can't be revealed just what this new idea is but it is enough said to say that this has never been done before by any publication, and the whole idea has been worked out by the Technique staff and the engravers.

M.I.T. Debaters Defeat Clark Team By Large Score

Hanower, Keller, Colton
Represent Technology
In Latest Victory

The M. I. T. Debating Society increased its number of victories by winning last Friday by an overwhelming score a varsity debate from Clark University.

Lee Hanower, '45, George M. Keller, Jr., '45, and John W. Colton '45, Technology's representatives, took the affirmative side of the resolution "Resolved; that the United Nations should establish a permanent federal union with power to tax and regulate international commerce, to maintain a police force, to settle international disputes, and to enforce such settlements, and to provide for the admission of other nations which accept the principles of the union." The judge of the debate was Dr. Edwin C. Rodwin, Assistant Professor of American History at Clark University.

The Debating Society also competed in four other inter-collegiate contests on November 12 and 13. On November 12 George M. Musgrave, '43 and John L. Hummer, '43, participated in a non-decision varsity debate with the University of Maine, at Orino, Maine. On Friday, November 13, the same team took part in another non-decision varsity debate at Bates College. Glenn

"You Can't Take It With You" Given As Dramashop's First Play Of Season

The M.I.T. Dramashop made a very promising opening for its season with the presentation of "You Can't Take It With You" last Friday and Saturday nights at the Peabody Playhouse in Boston.

Despite the fact that the play had been in rehearsal only four weeks, it was acclaimed one of the best produced by Dramashop. Although a large majority of the audience had seen other productions of the story, there were many interesting additions and subtractions rendered impromptu by the cast that made the show livelier than most professional productions.

The Cast Does Well

Frieda S. Omansky, '46, playing the part of Penelope Sycamore, the gushing author—painter—mother, gave one of the finest performances of the evening. Jasper D. Ward, '45, was a well-chosen Paul Sycamore, the juvenile father, who had a mania for fire-works. His cohort in the fire-works production, Mr. de Pinna, was very well portrayed by Harold A. Miller, '44. Mildred B. Edwardson, '46, did a very nice job of the ingenue lead, Alice Sycamore, but the difficult love scene with lanky Tony Kirby, Charles A. Mor-

Prom Guests To Get Bonds

Voo Doo Donates Two,
Prom Committee Gives 8

It has been announced by the Junior Prom Committee that there will be, in addition to the usual intermission of about one hour's duration in the latter half of the evening, a short interlude during the early part of the affair. In this period drawings will be held for the awarding of ten twenty-five dollar War Bonds.

It was stated that several students will then sell copies of Voo Doo, each bearing a number, to those attending the dance. Shortly after the intermission ten numbers from the list of those sold will be drawn at random. Purchasers will be told of these selections in order that they may match them, if possible, with numbers on the magazines. Each person holding a Voo Doo issue for which the number has been chosen will receive a War Bond. There will be no restriction on the number of copies that may be purchased, and each will be sold at the regular twenty-five cent price.

Two of the Bonds will be donated by Voo Doo, the rest being contributed by the Prom Committee.

(Continued on Page 4)

Tomorrow Is Deadline For Gridiron Refunds

Dormitory students wishing to obtain refunds on their Gridiron offers for "The Tech" must take their Gridiron cards to the business office not later than 5:00 P.M. tomorrow.

Positively no refunds will be given after this date. The business office is located in Room 301, Walker Memorial, and is open between the hours of 1:00 P.M. and 5:00 P.M.

Senior Ring Deadline

All seniors who have not done so should order their senior rings between 11:00 A.M. and 3:00 P.M., Friday, November 20, in the Main Lobby of Building 10.

The Senior Week Committee has announced that this will be the last chance for them to do so.

Prom Committee Urges Immediate Reservations

Holders of Junior Prom options are again reminded by the Prom Committee that reservations may be made each day from 12 Noon to 2:00 P.M. in the Main Lobby of Building 10.

The Committee urged that options be redeemed for tickets, and that reservations be made immediately.

Tech Song Fete Features Dance

Choir Competitions To Head Program

A storm of musical culture will sweep across the Institute's campus on December 4 as the rejuvenated All-Tech song fest returns with an impressive program of classics and swing.

Featuring the appearance of the Technology male choir and the classical orchestra, the evening's entertainment will be heightened by competitions between various voluntary musical groups from the Institute. Several fraternities and social groups have already entered representative bodies in these vocal competitions, the winner of which will retain the trophy donated by Professor Magoun for the annual victor. The present champion is Alpha Tau Omega.

Following the selections by the competing groups and the brief orchestra and choir appearances, an informal dance will round out the evening of free entertainment. The Techonians will provide rhythm for the occasion.

Abandoned for several years, the All-Tech Sing was revived last year with tremendous success and the hearty support of the student body. The rules of the competition make it possible for any musically inclined group of students to enter the race for Professor Magoun's cup. Last year's entries featured the appearance of an Institute co-ed choir which pitted itself against the numerous male voice groups.

The Technology choir has chosen two selections for its part on the program; "Go Down, Moses," a negro spiritual arranged by Canby, and "All Praise to God Eternal," as interpreted by Gaul. Prior to playing for the dance, the Institute swing orchestra will also appear on the program with the choir.

Students Urged To Answer Camp Poll

All students who received questionnaires on Freshman Camp from the T.C.A. are urged to fill them out and return them as soon as possible. The only way in which the camp can be improved in the future is through applying corrections shown to be needed by the poll of the students who attended.

The questionnaire, seeking information as to how the Freshman Camp on the campus can be improved, has been sent to the freshmen who attended and to the counselors who were there by Harry Ottinger, Jr., '43, chairman of the Freshman Camp Investigating Committee.

In the letter accompanying the questionnaire Ottinger states, "The difficulties imposed upon the T.C.A. by the war and the accompanying material and transportation shortages made it necessary that the camp be held on the campus this year, as you already know. Because it was something new and because we feel that it will be with us for at least a few years to come, we believe that there is much room for necessary improvement in this Camp on campus."

First Issue Of 'Vu' Goes To Press Soon

This Large Issue
To Feature Technique,
Profile Silhouettes

"Vu", M.I.T.'s Pictorial Magazine, opens its new year with a big twenty four page issue. This issue, first of three, will be published during the week of December 7. The staff expects an even better year than last year, when over fifteen hundred copies were sold.

This issue features "Technique" the undergraduate year book. It will picture the book in its various stages and also will give a preview of this year's annual. The many steps through which a book of this sort must pass before printing will be depicted, and the persons that do the work are to be shown.

Field Day is being given a large portion of this issue and there will be many pictures of the various dances that have been held around the Institute this year.

A novel feature is to be a series of profiles of prominent persons around the Institute which will test your knowledge of Institute bigwigs. The finest paper museum in this part of the country is right here at the Institute and "Vu" will picture it in this issue.

There will be three large issues this year. They will be published during the first week of December, March and May. All of them will be larger and will contain more pictures than last year's issues. An extensive program is planned and will include every item of interest at the Institute in these three issues. No extra copies are being printed this year, so it is expected that the magazine will sell out as it did last year.

Doctor Chao To Address Meeting

Will Talk About China
To East & West Ass'n

The M.I.T. East and West Association will meet at 8:15 Friday, November 20, in Pritchett Hall, Walker Memorial, to hear Doctor Yuen Ren Chao speak on "Language Education and Language Research in China." Doctor Chao is a Research Fellow in the Chinese Language at Harvard University. After Dr. Chao's talk there will be a number of round table discussion groups.

The association was organized last summer to encourage mutual understanding between students from the East and the West. This is the third meeting held so far, and in the future the Association intends to hold monthly gatherings. It will encourage informal discussions, and the meetings are to be addressed by competent speakers. All persons interested in the subject presented at the monthly meetings are cordially invited to participate in these sessions. There is no admission charge.

At the first gathering Professor Frederick Morris of Department of

(Continued on Page 4)

Mathematics Society Will Hear Talk On Motors

Mr. Donald L. Thomsen, Jr., instructor in the Department of Mathematics, will give a talk on Motors at the next meeting of the Mathematics Society at 7:30 P.M. tomorrow in Room 2-132.

The Mathematics Society, which meets every other Wednesday, is open to any student who is taking Course XVIII or who is interested in mathematics. New members will be welcome.

Student Teachers Wanted For New Civil Service Jobs

Service Schools Have
Positions Open For
Experienced Men

The Civil Service Commission is seeking student and junior instructors for the Army Air Forces Technical Schools and Navy Aviation Service Schools. Student instructors will be given instruction in radio operating, engineering, airplane mechanics, or shop work for a period of from three to six months. Upon successful completion of these courses the trainee will be promoted to the rank of junior instructor and will be assigned to an appropriate school. Student instructors receive \$1,620 a year and the junior instructors will receive \$2,000.

Persons can qualify for positions of student instructors by the completion of one year's study at a college; through the possession of a Civil Aeronautics Administration certificate in airplane mechanics, ground instructing, or airplane engine mechanics; by one year's progressive technical experience as an aircraft mechanic, aircraft or automobile engine mechanic, sheet metal worker, welder, photographer, machinist, camera repairman, radio operator, radio engineer, radio maintenance and repairman. They may also qualify by the completion of a technical course of at least six months in a radio school or a war training course in radio work, or through possession of a commercial or amateur radio operator's license.

Additional training or experience

Voo Doo Ties The Tech In Long Awaited Race

After several postponements, the Tech-VooDoo race was held at 5:00 P.M. last Tuesday on the obstacle course.

The race was closely contested throughout its entire length. John F. Tyrrell, '43, and Robert P. Richmond, '43, representing The Tech, and James Spitz '43, and Edmund R. Swanberg, '43, competing on behalf of Voo Doo.

Swanberg triumphed over Richmond in the first race. However, Tyrrell defeated Spitz in the second, with the result that the competition ended in a tie. Only two races were held because Metzger suffered a back injury in a touch football game.

ALL TECH WILL SING

The revival of an old Technology tradition has gained further momentum with the second consecutive staging of the All-Tech Sing being sponsored on Friday, December 4, by the Baton Society. Offering a silver cup, donated by a faculty member of their Advisory Committee, to the winning group, the Baton Society is continuing the custom it renewed last year after a lapse of five years.

The All-Tech Sing in years past was always regarded as one of the main social events of the year and was held at one of the major class dances. It served several functions then as it should now. In the first place it promoted an interest in music which is healthful for a collegiate group, in the second it gave the different groups a chance to show off their talent in singing their own songs, and in the third it was one competition in which all groups could participate upon a comparatively equal basis. In addition to the singing competition, the society is again holding a dance afterward so that the spectators and contestants can make it a real social event.

No stiff rules and regulations have been formulated so that the form of the competing team and its selection of song are entirely left to the choice of the individual entrants. Trick arrangements and novelties can easily have their place along with school, fraternity, and other songs. The selection can be, as it has in the past, as important as the quality of the rendition, within reason of course.

Some group is going to win a loving cup to adorn a mantel-piece, but everybody who participates or spectates should have a good time at this musical get-together.

WHERE DID THE BEAVER GO?

Every year the Beaver Club faces the problem of finding a suitable project for its initiates to undertake. This year the task becomes evident as the very name of the honorary society brings to the attention of the student body that Technology has no beaver! This deplorable state was magnified last year when the present members of the club made a heroic but unsuccessful attempt to provide Technology with a real live beaver.

As the stay of the venerable Seniors shortens, the new men must snatch the torch from the fumbling hands of the present members whose enthusiasm so pitifully lapsed into lethargy. This they must do in order that the black mark brought upon the Beaver Club may be forever erased and so that athletic teams representing Technology on the field of battle may have some sort of inspiration to urge them on to greater things.

All schools have a mascot, usually in the animal kingdom, which represent the tenor of the school's esprit de corp. We have the Beaver, nature's engineer, commonly referred to on this campus as the "Bronze Rat." It is a fine state of affairs when the school mascot is looked down upon by its own members. Not only is our beaver slightly in ill-repute, but it exists solely on paper and the senior ring.

It is possible, and we hope probable, that the latest additions to Beaver Club may have the required energy to carry out the mission which their predecessors began so magnificently and ended in such infamy. The students of Technology are tired of words. They want to see the real thing.

The Reader Speaks

The Editor of The Tech

Dear Sir,

The editorial article of Friday last entitled "Watch Those Profits" appeared to be a series of complaints made in a non-committal manner and of no avail but to cast aspersions without background of substantial facts. The fact that the International Club did not charge admission to girls might account for the fact that their financial gain of \$40 was so much less than the \$400 profit made by the Catholic Club.

A careful review of the Student Constitution, the By-Laws of the Institute Committee and the Budget Committee discloses nothing pertinent to the amounts of money that can or should be earned by a Class B activity. We are engaged in a war for freedom in its fullest connotative sense compatible with the proper functioning of a well ordered society. Should the freedom of enterprise be snatched from Class B activities when these activities have neither desecrated the honor of the school they represent nor forced on the public a dance that was so poorly run that it attracted too few to assure its financial success? True it is that the Technology Christian Association, a Class A activity, could put the funds derived from just such an acquaintance dance to good use in the carrying out of their worthy program (as was stated in a previous editorial). However, the surprising success of the Catholic Club Dance which came exactly one week after the International Club Dance shows that this type of dance is profitable and would prove to be so even if run by another school activity.

The point is, however, that the amount of money in an activity should not determine its status, A or B, and should not be directly proportional to the number of members. An activity of but a few members would certainly not be condemned for over zealotness or selfishness if it should accept a sizable financial endowment from some outside source. Why then should an activity be criticized for successfully running an affair that satisfied all who took part in it, but rather unfortunately(?) turned out to be a financial success? A club that has the initiative and ability to secure for itself a lucrative budget should be entitled to disburse the money it makes for its own best interests.

Activities here at Tech are co-existent under the guidance and supervision of the Institute Committee to prevent clashes of interest between different organizations. Therefore, it is but proper that The Tech, an activity which is itself under the jurisdiction of the Institute Committee should edit its convictions about striking wrongs committed by a brother activity. However it is not right to accuse activities of "slipshod accounting" without backing up such a statement with some sort of proof. The mighty pen of an editor should be restrained from this depredation of character printed in such a non-committal form. Such desultory remarks as those that appeared in last Friday's editorial are unanswerable because of their broadness. Let us have complaints combined with reason and not those complaints that limp onto the public stage unaided by crutches, and so fall; for some there are who see the fall and know the actor to be a phoney, but those less wide awake turn their attention to some other stage and remain forever impressed with the crippled actor's prowess.

Very truly yours,

John White, '44

Treasurer, Catholic Club

To the Editor:

The T.C.A. has been sponsoring a car pool in an effort to save gasoline and rubber. So far the number of people who have shown an interest in this plan has been so small

Walker Dining Service Has Tremendous War-time Problems

(Ed. Note. This is the first of a series of three articles on the wartime difficulties of the Walker Memorial Dining Service. The other articles in this series will be published in subsequent issues.)

Carrying out the most difficult task in its twenty-five years of existence, the Walker Memorial Dining Service is now serving about 4,500 meals daily instead of the 2,500 which it was built to serve. This tremendous influx of people has made necessary several changes in service by the department. Increased attendance, coupled with the rationing of several important items, and the shortage of others, has made the job of feeding Technology many times more difficult than it was a year ago.

According to Mr. Albert W. Bridges, Director of the Dining Service, several steps are being taken to relieve the situation, and make it possible to serve the Institute students as expediently as possible. The two largest of these movements will be in the form of asking the various departments at Technology Institute a system of staggered lunch hours in order to spread out the rush, and in making a drive to keep out all persons not connected with the Institute and who thus have no right to eat here. Although the plan for staggering lunch hours has not as yet been definitely established the Dining Service is now making every effort to limit the eaters in Walker to persons directly connected with the Institute.

Lunch in Pritchett

One service offered only for lunch, and one not used to its full capacity, is the serving of meals in Pritchett Hall, from 11:00 A.M. to 2:15 P.M. Meals are also served in the 5:15

Club room during that period for those club members who wish to eat there. The Lounge Bar, now in its third year of operation, also fills the needs of those students who have classes during the regular lunch hours. In the Lounge Bar one can get any kind of hot or cold sandwich or drink between the hours of noon and midnight.

The service which most students miss the most, according to Mr. Bridges, is the table service offered for the first time last year, and abolished this year because of the tremendous number of people eating dinner in Morss Hall. Even though table service is no longer supplied, the Dining service now has a staff of 100 men, the largest student staff in its history, representing an increase of 40% over last year's staff. The 65 regular employees now necessary to keep the dining service at top standards, represent an increase of 30% over last year's figure. This last increase is of singular importance in a world where help is at a premium, especially in the restaurant business, according to Mr. Bridges.

The Walker Dining Service has also undertaken an additional burden by serving the full twenty-one meals a week this year, not omitting Sunday breakfast as has been the custom in the past. In addition to these regular meals, also the Service has all the Institute's social functions to handle, and this business has not fallen off at all this year. On nights such as Field Day and the Junior Prom Saturday night Dance, it will be necessary, according to Mr. Bridges, for the Dining Service staff to work until about 3:00 A.M. in order to have Morss Hall ready for the first serving of breakfast at 7:00 A.M.

Where Boys Played

Last weekend was a rather exciting one around the Institute with many places for boys to play. Friday night had three things for those who could attend. Most exclusive party of the evening was held by The Tech at the State Bowling Alleys on Burbank Street, Boston, where the paper had the alleys reserved for the evening for

as to require a single digit to give the figures on those who have applied. The plan is set up so that as few cars as possible will be employed to get the largest number of people to their destination. Each person with a car is requested to fill out a sheet on which the route, time of departure, and capacity of car should be given. The driver would not have to go out of his way or change his time of traveling to accommodate his government and a few fellow Americans. The T.C.A. will arrange the car-pooling so that all that is required of Mr. Driver is the application of his brakes at one or two corners. Just because you have new tires and enough gas to get to work this fortunate situation does not mean that these privileges be used to the last drop of gas and the last blowout. Here's a chance to help win the war and at the same time to meet a few of your neighbors. All that is required is a short trip to the T.C.A. office in order to fill out the information sheet. Don't put it off till tomorrow. Get in this war up to your ears and take a small part of the credit for putting Hitler where he belongs. There are approximately three hundred cars coming to Tech every morning. From now on there should only be about seventy-five.

Respectively yours,

W. P. Brown, '45

their staff, editorial boards, and candidates. A very energetic evening was spent with cider and doughnuts supplying the refreshments.

For those who prefer to take their entertainment in a more relaxed way, there was the Dramashop production of the Broadway hit "You Can't Take It With You." This, although not quite as polished as it was at its last showing on Broadway, was deserving of at least two bells in anyone's column. This play with slight changes in script known only to those who had memorized the original was given again on Saturday night. Not many people saw it twice, but enough people enjoyed it each evening to make it a huge success for the Dramashop, as well as an excellent way for anyone to spend a pleasant evening.

Among the fraternity dances, Alpha Tau Omega took over Fry's barn in Brookline Friday night and put on quite a dance. There is something about the fall, and the spirit of it that lends to a barn dance this time of year. The hay ride from the bus stop on the Worcester Turnpike to the barn about a quarter of a mile away is another innovation for fraternity dances, which although brought about by the unpleasantness of gas rationing, is still a rather pleasant form of transportation over short distances.

The Kappa Sigma's at their house on Bay State Road became the first house to break out their formal togs in defiance of the Institute Committee and the Inter-Fraternity Conference and hold their house dance formal. This dance, their annual punch bowl, has always been a good dance of wide repute, and proved to be no let down this year for those people attending. This dance also gave many men a chance to make sure that their tails and tuxes would still fit, and gave them ample opportunity to have them refitted for the Junior Prom next Friday night.

Tech Dinghy Skippers Take Second Place In Final Regatta

Sailors Cop Second Place As Harvard Wins

The Tech dinghy team brought its successful season to a close with a second place in the Invitation Team Race Regatta held under the burgee of the Northeastern University Yacht Club. The race was held Sunday morning and afternoon, November 15, on the Charles. The event was a novel type regatta. The twelve teams entered were divided up into four groups, arranged so that the four best teams were placed in different groups. The winners of the morning triangular races were put on a four team group for the afternoon races. The second and third place teams were likewise placed in four team groups.

This set up unlike other regattas gave the second and third place teams a chance to win a consolation regatta in the afternoon and more important, a chance to sail where otherwise they would be on the shore watching the others race.

A Dozen Teams Enter
A dozen New England colleges entered the regatta with three crews. The groups were arranged according to the teams' showing this Fall. After each race, the crews changed boats by teams to eliminate the chance of one crew possessing a fast boat for the whole regatta.

The results of the morning series placed Harvard, M.I.T., Coast Guard, and Dartmouth in the first division; Williams, Boston University, Holy Cross, and Northeastern in the second division; Brown, Boston College, New Hampshire, and Worcester Tech in the third division.

The results of the afternoon series:

Trials Scheduled For Swim Teams

Time trials will be held this week for both varsity and freshmen squads on Tuesday, Wednesday and Thursday. The last cut in the freshman squad will come this week, probably after the results of the time trials. Also all eligibility cards are to be filled out by the candidates for both teams.

The first varsity meet is only three weeks away while the frosh have less than a month. The varsity meet is with R.P.I., here, on December fifth; the freshman meet is with Dean Academy, on December 12 at the Alumni Pool.

T.C.A. Has Tickets For B.C.-B.U. Football Game

Tickets for the Boston College-Boston University football game this coming Saturday are now on sale at the T.C.A. office. General admission at \$1.10 or reserved seats at \$2.20 may be had. The reserved seats are on the B.U. side at about the forty-yard line.

Tickets for the game between Boston College and Holy Cross on November the 28th may also be obtained at the T.C.A. office. These tickets are for reserved seats at \$3.30 in sections 24 an 20.

Coach Praises Gymnasts' "Go"

Adverse Conditions Fail To Down Turnout

"They're all right" says Coach Farsell in commenting on the gym team's excellent turn out under adverse conditions. Deprived of their usual headquarters, the Walker gymnasium, by the basketball team, the gym men must practice at the Y. M. C. U. in Boston.

This naturally presents a transportation problem which is solved by the members making use of the

D'Artagnans Are Showing Talent

Varsity Fencers Ready To Take On All Comers

The Tech fencing team under the expert coaching of Joe Levis, former Olympic champion, has been shaping up in the last month's practice in preparation for this year's stiff schedule.

According to Larry Churchill, manager of the varsity team, "the team will undoubtedly win most of its bouts this year although we have one of the biggest schedules ever faced by a Tech fencing team."

Three Letter Men Lost
"We lost three letter men, Hinchman, Kellogg, and Nowak, through graduation last year, but we have gained quite a few good men from last year's freshman squad who have had previous years of experience."

The following is the schedule of the varsity fencing matches:

December 12	Brown	There
January 6	B.U.	There
January 9	Harvard	There
January 15	Hamilton	There
January 16	Cornell	There
January 23	N.E.I.F.T.	Here

Beaver Soccermen Are Defeated 3-0 By Dartmouth

Varsity Ends Season Hampered By High Wind And Chilling Weather

The varsity soccer team closed its season this year with a game with Dartmouth last Saturday on Briggs Field, which Tech lost 3 to 0. The Beavers looked better than the Green during the first half, which ended in a scoreless tie; but the Dartmouth team came back in the second half to score three times.

The game was slowed down a great deal by the extremely cold northwest wind that whipped

S. A. E., Senior B Win Grid Clashes

The final round-robin tourney of the current Beaver Key schedule inched two steps closer to completion as brawn-packed SAE trimmed Theta Chi, 14 to 6, and Senior B romped through Sigma Chi, 6 to 0. Of the last five squads in the round-robin, only SAE, Senior A, and Senior B remain in the undefeated brackets. Of these, SAE reigns as the favorite to retain the touch football crown it captured last year. The week to come will match SAE against both Senior B and Theta Chi. If the Sigma's come through against both opponents, the race will hinge on the result of the Senior A and SAE massacre on November 28.

Squash And Boxing Out; Army Cadets Use Courts

Squash and boxing practice have been suspended by the President of the Institute in order that the squash courts may be made available to Army students, according to a notice received from Ralph T. Jope, secretary of the Advisory Committee on Athletics, and Kenneth R. Wadleigh, '43, president of the M.I.T.A.A. No practice will be held until suitable facilities can be arranged, according to Jope.

Freshmen taking boxing or squash to fulfill physical training requirements are requested to report on or before November 20 to Mr. H. P. McCarthy, Walker 335, for assignment to another sport.

Harriers Place 13th In I. C. 4-A

The varsity cross-country came in thirteenth in the main I.C. 4A event. A fast group of colleges including such far away universities as Michigan State ran seven men each which brought the total to more than 125 runners.

Competing against an extended field of cross-country runners, Frank Cassidy, '46, came in fourth,

Seniors Take Track Meet From Freshmen

Juniors And Sophs Take Third, Fourth In Interclass Meet

Last Saturday the Senior class took the Fall Annual Inter-Class meet with a total of 65 points just edging the Oscarite favored Class of 1946 by three points.

Competing against the cold winds of that afternoon a group of five seniors created a record that should stand for years to come. The class pulled a surprise by getting the all round field man Greg Azarian to compete in five field events and to collect a total of 15½ points.

Although Bob Meny, '44, lead the field in scoring 18½ points for his class, this was not quite enough to beat the concentrated efforts of the Senior five. The class of 1944 came in third with a total of 55 points and the Class of 1945 ended the day in fourth place with 30 points.

"The frosh showed up in numbers," said Oscar Hediund, coach of the team, "but lacked several first scorers who were missing when the afternoon program got under way. The new class had balance in every event which will help Tech's track

MEDICO FILTERED SMOKING

66 Baffle Filter Thrills Smokers

USED IN MEDICO PIPES, CIGAR, AND CIGARETTE HOLDERS

New York—The scientific, absorbent filter has contributed mightily to the smoking pleasure of millions of men and women who have switched to Medico Filtered Smoking. Actually, the smoke must travel through 66 "baffles" before reaching the mouth. Flakes and slugs are trapped; and the smoke is whirl-cooled as it winds its way through the filter.

The Tech skippers scored as follows: Parkinson, high scorer, 36; Hal Boericke, 35; Fennessey and Greenwald teamed together to gather 32 points.

Gym Team

(Continued from Page 3)

subway system, thereby spending about an hour in getting to the Union and back. In spite of these conditions, Technology has the usual good showing.

Team Is Strong On Bars

Bob Maxwell, '43, captain of the team is a good all-around man whose specialty is the parallel bars. Good men on the high bar are Paul Nelson, '44, and Henry Bourne, '44, who is also expected to make a new Technology record on the rope climb.

Steve Brown, '44, competing manager of the team, is making rapid progress on the parallel bars. "Chuck" Carlson, '44, is the only veteran side horse man left this year, but with necessary time given to practice he promises to become one of the best side horse men ever turned out at Tech.

On the rings Frank Wilbour, '43 known as "Little Caesar" looks very good. One of the best and hardest working men on the entire gym team is John Gall, '45, who is working to become an all around gym man.

But Weak In Tumbling

As there are no facilities for tumbling at the Y.M.C.U., the Tech tumbling team is weak this year.

The freshman turnout is good this year, and according to coach Farsell very good material has turned out. These new men will have their usual meets with local high schools.

Varsity meet dates have not been set yet, but the manager hopes to have a meet with McGill before Christmas, and also to have at least one meet with both McGill and Springfield before Senior graduation.

Coach Farsell admits that he was surprised at the excellent turnout of the gym team, and he says that the men deserve much credit. Technology is doing its part, he believes, in keeping the sport alive in the face of great difficulties.

Team To Take Trips

The Technology team makes quite a few trips to compete against other colleges. The most outstanding of which are to Yale in New Haven, to Hamilton in Clinton, and to Cornell in Ithica.

There are twenty-one men out for varsity posts and a total of thirty-two aspirants for the freshman competitive team. "Although," said Larry, "these men are hampered by the fact that they have to fence in the basement of the new dorms, they have been able to overcome this obstacle to a great extent and are doing rather well."

Fresh See Good Season Ahead

"The freshmen, practicing three days a week, are on the road to a good season. They have an advantage over most colleges in that five of their number have had one to five years' previous training and have already fenced competitively. With these boys as a nucleus the freshman squad should not have much trouble with other colleges."

The schedule for the class of 1946 team is now in the last steps of make-up. The first meet will be held late in February to assure a maximum amount of time for the freshman practices.

Junior Prom

(Continued from Page 1)

tributed by the Junior Prom Committee on the behalf of the Class of 1944. Each group is following the present trend of awarding bonds instead of cash, in order to further the war effort.

For several hours previous to the dance Voo Doo will be sold on the campus to all students. However, these copies will not bear numbers, and consequently will not be included in the awarding of War Bonds.

East and West Assoc.

(Continued from Page 1)

Geology spoke to an audience of over one hundred students about Russia. Mr. Halibur Rahman, graduate student from Calcutta, India, addressed the second meeting on "India's Architecture."

Both graduate and undergraduate students are welcome and will receive announcements of future meetings and discussions if they will contact Yeram S. Touloukian, chairman, at the association offices at 305 Memorial Drive.

Cross-Country

(Continued from Page 3)

closely following the leaders. Oscar Hedlund, coach of the track team, took both Cassidy and Henry Henze, '46, to Van Courtland in New York to compete in the freshman race held there as part of the I.C. 4A program. Both boys placed, Henze finishing eleventh.

Outing Club Elections Will Be Held Tomorrow

Two colored films on skiing will be shown at the annual election meeting of the M.I.T. Outing Club so be held from 5:00 to 6:00 P.M. tomorrow in Room 1-390. The films were released only recently and have never been shown before by the Outing Club. They are designed for entertainment rather than instruction.

President Walter G. Wells, '43, urges every member of the club to attend if possible so that the new council may be selected by a quorum quickly.

Wrestling

(Continued from Page 3)

three pounds will still rate you in the lower division.

Matches Begin at 5:10 P.M.

Weighing will start any time after 4:00 P.M. and matches will begin at 5:10 P.M. All entries will be accepted up to the time of the match. John Lutz, coach of the team stated in his office last night, "We are wide open for any men in the 121 pound, 175 pound, and the heavyweight classes. Experience is not necessary, come out and find out just for the fun of it."

During the regular wrestling sessions, held every Monday, Wednesday, and Friday, Coach Lutz gives his men pointers on the sport. After his lessons the boys hold bouts among themselves and he goes around correcting their holds and improving their technique.

Varsity Meets Tufts First

The first varsity meet will be with Tufts at Tech on December 3. This meet will be closely followed by one against Harvard on the fifth, and on the twelfth of the same month the team will travel to Middletown, Connecticut to grapple with Wesleyan College, the inter-collegiate champs.

Last year's wrestling squad was recognized as Tech's best group in twelve years and the freshmen teams were undefeated for two years so that Tech's chances of making wrestling history are almost a surety. The team still lacks material in certain weights which should be made up by the time the season opens.

"You fellows," said the coach, "who are looking for some sport to get into, will find wrestling a worthwhile accomplishment. We help you to co-ordinate your muscles and to use your body to the best advantage. I repeat, we are looking for fellows, and we'll help to build you up, so come out for the team."

Soccer

(Continued from Page 3)

across the field. It was generally conceded that the Beaver line lacked a scoring punch and the backfield was not supporting the line as it had done in earlier games.

Carpenter Back In Game

Captain Warren Carpenter was back in the lineup and played a very good game despite the injuries that had kept him out of the game with Tufts. The Tech line-up was as follows: goalie, Jim Libby; fullbacks, Miles Coverdale and Malcolm McFaul; halfbacks, Warren Carpenter, Bill Richardson, and Ed Chapin; forwards, Tom Moose, Bill Ihde, Hugh Slawson, Bill Abbott, and Ralph LaVallee.

Although the team started the season slowly it played a very good game against last year's champion's, Springfield, and tied Tufts last week.

Clare P. Johnson Wins Chem. Award

Clare P. Johnson, '45, has just been announced winner of the annual freshman award made by Alpha Chi Sigma, honorary chemical fraternity. As winner of this award he will be made a student member of the American Chemical Society. His name will be posted in the freshman lecture hall as winner of this year's award.

This prize made annually by the fraternity is awarded mainly on the basis of outstanding scholarship, and the man winning it is chosen by a committee of freshman professors. Johnson is in Course V.

Civil Service

(Continued from Page 1)

is necessary for the junior instructor positions.

There will be no written examination as applicants' qualifications will be judged from their records of training or experience.

Applicants must be at least twenty years old, but there is no maximum age limit. Persons subject to an early draft call will not be accepted. Applicants will be accepted until needs of the services have been met. Forms for applying may be obtained from any first or second class post office and should be filed with the secretary of the Board of Civil Service Examiners at Chanute Field, Rantoul, Illinois.

Debating

(Continued from Page 1)

H. Leggett, the Debating Society's coach, accompanied the team.

Two freshman debates with Williams College were also held on Friday. One took place in Walker Memorial, and the other was held at Williams College.

On Thursday, November 19, the society will meet a team from Harvard to debate the subject, "Resolved, that immediate independence be granted India." Technology's representatives will be Edward Eich, '45, and Jack L. Uretsky, '45. The debate will be held at 6:45 P.M. in Room 606 of the Boston Y.W.C.A.
